PROFILE

Hi there! I'm a self-taught front-end developer based in Warsaw. Passionate about crafting seamless user experiences, I specialize in building dynamic and responsive web applications using the powerful combination of React and TypeScript. With a keen eye for design and a commitment to code quality, I bring innovation to life in the digital realm.

EMPLOYMENT HISTORY

Frontend developer, Dathuis

Amsterdam

Apr 2021 — Present

- Engineered and improved an automated platform for real estate professionals using React and TypeScript. Ensured a consistent and polished look across the entire website by defining a clear visual identity.
- Enhanced the user onboarding process, making it seamless from start to finish through careful research, planning, and feature implementation.
- Contributed innovative ideas to optimize code efficiency, leading to immediate improvements and sustained performance gains over time.
- Collaborated closely with backend developers to seamlessly integrate frontend components with RESTful APIs, ensuring smooth communication between different parts of the platform.
- Played a key role in daily stand-up meetings and sprint planning sessions, fostering collaboration and boosting overall development efficiency.
- Conducted regular code reviews to maintain high coding standards, elevate code quality, and facilitate knowledge sharing among team members.

Frontend Developer, Freelance

Minsk

Oct 2020 — Apr 2021

- Creating responsive design and cross-browser compatible websites using HTML/CSS/Javascript.
- Collaborating with designers and developers using Git, Trello, Figma.
- Creating web applications based on a design using React, TypeScript.
